AUTHENTIC EXPERIENCE

Orvieto is not the stage of a journey but a life experience. **Authentic.** And you are not just a tourist, you are a temporary citizen. **One of us.**

BEAUTY AROUND YOU

Art and culture accompany us at every step. The **Duomo**, a golden casket of the masterpieces of **Signorelli** and **Mochi**, custodian of the Miracle of **Corpus Domini**. The Papal Palaces house the treasures of the Cathedral, the **Emilio Greco Museum** and the **National Archaeological Museum**. The Etruscan history is breathed in the **Necropolis of Crocefisso del Tufo** and lives again in the fascinating rooms of "**Claudio Faina**" **Museum**. The church of **San Giovenale** and the medieval quarter tell of a glorious past, the power of the ancient Municipality stands on top of **Torre del Moro**.

THE MAGIC OF HIDDEN CITY

Under the rock there is a hidden city. Here starts a journey through time, from the Etruscans to the present day. The Well of Saint Patrick, a surprising engineering work commissioned by Pope Clement VII and inserted between the Unesco Water Museums, the maze of man-made caves of Orvieto Underground, the ceramic kilns of Pozzo della Cava, the Etruscan cisterns of Labyrinth of Hadrian and the basement of the church of Saint Andrew, underground "identity card" of the city.

THE PLEASURE OF GOOD FOOD

The "sun in the glass" for D'Annunzio, the drink of Etruscans and Popes. Our wine take the name of the city, **Orvieto Doc**, produced from over 30 wineries in the area. Taste the **Dop oil** and cheeses, look for the iconic "**Lumachella**" in the bakeries, a tradition that is handed down like the **Second bean of the Plan of Orvieto**, a Slow Food presidium.

THE OTHER ORVIETO, ITINERARIES AMONG NATURE

The territory of Orvieto reserves surprises for those who want to experience emotions in open air: walks through history around **Ring of the rock**, the biodiversity of naturalistic heritage of **Monte Peglia**, Unesco reserve, fishing at **Corbara Lake**, canyoning to the **Prodo gorge**, excursions along **Romeo-Germanica road**.

THE STORIES OF ARTISANS

In the streets of historic center echo the sounds of artisan shops that tell the history of the city and the industriousness of the people. **Ceramics, wood, lace, gold** and precious items take shape in the workshops where art is handed down from father to son. Find them between **via Michelangeli** and **via dei Magoni** or in the alleys of the medieval quarter.

“We know why people should come here, we who have chosen to live the spaces of our history”
